

Outdoor Gas Griddles

The Most Versatile Outdoor Cooking Appliances We Make

PG-72S Fixed Base Griddle
Requires 2 - 30# LP Tanks

PG-52S Fixed Base Griddle
shown with optional LP Tank

PG-36S Fixed Base Griddle
shown with optional LP Tank

- **EXTREMELY VERSATILE:** Griddles are unmatched in their ability to prepare a wide variety of meals. They are uniquely suited for cooking breakfast, lunch and dinner menu items. Our high capacity, outdoor griddles combine the meal-plan flexibility and sturdy construction required to transport units to off-premise locations. Big John Griddles are built strong to survive the abuse yet light enough to comfortably move on a daily basis.
- **SUPERIOR PERFORMANCE:** The large cooking surface and 4" high lip allows you to work fast without spilling. The 1/4" thick steel griddle surface is extremely strong and provides excellent heat transfer over the entire cooking surface. Individually controlled, high output burner tubes provide heat control and allow the surface temperature to be held uniform. Separate burner tubes can also provide a graduated heat that allows for cooking in front and holding in back when needed. The wind resistant burner tubes are protected inside the enclosed body that can serve double duty as a short term warming or holding area for your chafing dishes.
- **SOLID CONSTRUCTION:** These commercial grade griddles are built to provide years of reliable service. The 1/4" thick steel griddle top is bolted solidly to a strong, square-tube, steel chassis. The carbon steel body and tube frame are powder coated to ensure easy clean-up and years of trouble free maintenance.

Model	Description	Griddle Size	Burners & Controls	Weight
PG-72S	Fixed Base	20" x 72"	6 x 30,000 Btu	242 lbs.
PG-52S	Fixed Base	20" x 52"	3 x 42,000 Btu	190 lbs.
PG-36S	Fixed Base	20" x 36"	3 x 30,000 Btu	154 lbs.

Outdoor Gas Griddles

Super Strong and yet Light Enough To Transport

PG-52 Portable Griddle Package
includes A3FC, Leg Brace & 30 lb. Tank

- **STACK AND TRANSPORT IN LIMITED SPACES:** The compact design of our Griddles and Folding Leg Carts allow these units to be stacked on top of one another for storage or transportation
- **SOLID CONSTRUCTION:** Our stands are manufactured from 11 gauge carbon steel for strength and powder coated for a UV resistant, long lasting finish. They also feature dual locking mechanisms for safety.
- **OPTIONAL LEG BRACE** is strongly recommended. It is easily installed to provide extra strength and support for the folding legs while they are extended open.
- **SOLID REPUTATION:** If you are looking for the ultimate in quality, durability and versatility our fixed base and portable griddles are the proven solution.
