

The Original Charcoal Rotisseries

From the Leader in Open Pit Rotisserie Cooking

M-15B 5' Charcoal Grill and M-251B Rotisserie
Shown with Optional Two Way Skewer and Wheel Locks

- **STAINLESS STEEL HARDWARE:** Our Rotisseries are designed and manufactured without compromise using type 304 stainless steel hardware to hold the meat securely in place because it is durable, easy to clean, sanitary and will not rust.
- **HEAT CONTROL:** Adjustable height end mounts can be raised and lowered in 1 inch increments from 13-24 inches for precise heat control. These end mounts support the spit's entire weight and isolates the motor from damaging loads.

The Original Charcoal Rotisseries

Perfect for Slow Roasting Pork, Beef and Turkeys

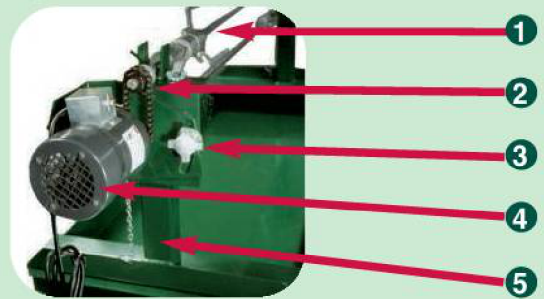

**STOCK
ITEMS**

M-35B 5' Charcoal Rotisserie
Shown with Optional Wheel Locks

- **RELIABLE:** Some manufacturers use simple direct-drive rotisseries which can overheat the motor by placing a heavy load on the gearbox bearings. Big John's Rotisseries utilize a reliable chain drive that places the spit's entire weight onto two supporting mounts. This isolates the motor from these damaging loads so it can provide years of reliable and dependable service.
- **POWERFUL MOTOR:** 1/20 hp. electric motor and reliable chain drive easily turns up to 125 lbs. at 6 rpm - the perfect speed for self-basting. Nobody builds rotisseries like Big John – insist on using the best!
- **CHOOSE OUR ONE PIECE OR COMBO UNIT:** The uprights on the Model M-35B Rotisserie are welded directly into the 5' charcoal firebox. This unit cannot be used with a grill top but is a very cost effective choice for rotisserie cooking. The M-251B Add-On Rotisserie fits securely into our M-15B charcoal firebox converting it from a grill to a rotisserie. This grill and rotisserie combo roasts a pig just as easily as it grills burgers and steaks – covering all your outdoor charcoal cooking needs.

Big John Rotisseries Feature:

- 1 Stainless steel cooking hardware is sanitary, easy to clean and will not rust.
- 2 Reliable chain drive isolates damaging loads from motor.
- 3 Easy to adjust tension on the drive chain.
- 4 Powerful 1/20 hp. electric motor can turn up to 125 lbs.
- 5 Spit adjusts from 13" to 24" high for precise heat control.

Model	Size	Description	Spit Capacity	Pig Roasting Time	Weight
M-35B	2' x 5'	Lowboy Firebox & Rotisserie, Black	125 lb.	10-13 hrs.	179 lbs.
