

How To...

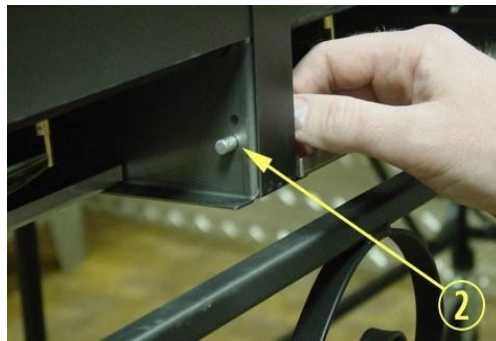

Install Drip Tray Locks

Drip tray locks are highly recommended for grills that are going to be used in catering operations and rental situations. They prevent the stainless steel drip trays from sliding out of the A-Series gas grills during transportation. These lock sets fit all Country Club, P-Series, and Trail Boss Grills.

TO INSTALL:

1. Locate the hole in bottom of grill bay between sections.
2. Insert the attachment rod
3. Slide lock on each side of attachment. Insert cotter pin through the end of the attachment rod on both

DTL4 Fits: Model A4CC, A4P, Trail Boss I, & Trail Boss II

DTL3 Fits: Model A3CC & A3P
